

# Hot Springs Village Resident (Non-Migratory)

## Geese Management Effort - Spring 2023

- **Request assistance of any HSV Property Owners in locating active goose nests during the late February-early March nesting season.**
- Hot Springs Village lead for this effort is the Common Property, Forests, & Wildlife Committee.
- Primary effort involves the identification & locating geese nesting sites.
- A team that includes Federally Registered Egg Addlers then cover the eggs in an environmentally safe oil which precludes egg hatching. This is the only approved method for management of resident geese.

Call: (713) 824-7814 or e-mail: [hsvgoosenest@gmail.com](mailto:hsvgoosenest@gmail.com)  
with a location (lat/long, address, etc.) of identified nests.
